## ISNVH: Integrating Seamlessly NVH NVH in the era of connected and automated vehicles

November 3-5, 2020 Graz / Austria

### Announcement & Call for Papers

#### Topics:

Apart from traditional topics, such as:

- powertrain, transmission and drivetrain NVH
- intake and exhaust acoustics
- flow noise and aeroacoustics
- tyre-road noise
- sound absorption and insulation
- NVH trouble-shooting and problem solving
- active noise and vibration control
- noise & vibration quality and perception, sound design
- full vehicle NVH including pass-by
- NVH target setting
- HVAC acoustics
- squeak and rattle

... we encourage the submission of contributions in the fields of:

- acoustic meta-materials
- smart surfaces / embedded sensors
- machine learning and data science for NVH
- interactive human-machine interfaces
- auditory and haptic perception, touch sound
- audio signal processing and reproduction
- simulators (VR, AR and MR)
- NVH and automated driving
- vehicle component fitness monitoring
- new instruments, transducers and measurement techniques
- interior of the future and seat NVH
- vehicle infotainment

#### Abstract Submission:

The abstract must be submitted online ([www.isnvh.com](http://www.isnvh.com)) in English including the title, the list of authors, their affiliations and an abstract text between 200 and 250 words.

#### Important Deadlines:

**Abstract submission:** Oct. 13<sup>th</sup>, 2019  
Please submit online at: [www.isnvh.com](http://www.isnvh.com)

Full manuscript: Dec. 8<sup>th</sup>, 2019  
End of review: Feb. 29<sup>th</sup>, 2020  
Paper final version: Mar. 31<sup>st</sup>, 2020

#### General Information:

**Congress Location:**  
CONGRESS GRAZ  
Sparkassenplatz 1  
8010 Graz, AUSTRIA

**Congress Office:**  
VIRTUAL VEHICLE  
Inffeldgasse 21A, 8010 Graz

**Contact SAE International:**  
Bernard Challen,  
Melissa Jena
